**Subject:** Transition question

Hi-

I'm interested in communications between PE Trump's transition team and EPA employees, so I'm looking for some advice on a reasonable way to craft a request.

Ultimately, I'd want something along the lines of "all records of communication between the EPA and any person on the EPA landing team for President-elect Donald Trump."

Would that be a reasonable and simple enough request, or would you prefer that I restrict the it to certain offices or people? If so, which offices or people would make sense?

Thank you.
